Bayoo is a media consulting and production firm directed by a French and Chinese team. Specializing in exchanges with Asia, Bayoo consults with productions for both Chinese and European markets.

Bayoo works along with Asian producers and helps in **every phase** of producing their films in France and all over Europe. Recently, for example, Hunan TV engaged Bayoo as executive and associate producer for the French episodes of its series "Behind the Crystal Veil" 又見一簾幽夢 written by Chiung Yao. By shooting in France, Asian producers were able to bedazzle their audiences with the beauty of the French countryside and the exoticism of European landscapes.

Bayoo knows that the **economic parameters** of shooting in Asia and shooting in Europe are vastly different. Bayoo knows all the subtle facts about these differences and can take care of your interests in every phase of operation. We will take care of **every detail** concerning local staffing and facilities.

Let us be responsible for understanding the differences between work habits and practices of Asian and European production staffs. We are sensitive to the **cultural needs** of your workers who are far from the familiarity of home. We can make your production staff feel comfortable so they can concentrate on your project. The choice is up to you ... Bayoo can be your executive producer, your associate producer, or just a supporting presence during the shooting of your production.

Shooting a film in Europe, and especially in France, requires that your crew will follow some very **specific laws and regulations** in several areas (administration and legal formalities, regulation of finances, acquiring work permits, being granted authorizations to film at a given time or in a given place and so forth). We at Bayoo know the ins and outs of various administrations and we can implement the very best solutions for your specific problems and challenges.

Bayoo can help you to find **additional financing** for your production with the help of local organizations.

Your film will attract a certain target audience. Bayoo can find advertising sponsors that correspond directly to that demographic. We can also help with **product-placement** and funding sources.

Based on your production book we will select a panoply of exterior sets from which you can make your selection. We can also help in local casting and finding the technical facilities that you will need.

The goal of Bayoo is to provide savoir-faire and professional link-ups to facilitate the production of your film in France. We will do everything possible to liberate you so that you can dedicate yourself to the creative side of filming. We will take care of every detail so that you will not be encumbered by the problems that could run the risk of undermining and derailing your project. Let us run interference so that you can be **creative and comfortable** with all dimensions or your European filming experience. Your project is important to you, and it is important to the dedicated professionals at Bayoo, also.

A man and a woman are shown in a romantic embrace on a cliff overlooking the sea. The man is wearing a dark jacket and the woman is wearing a light blue top and a straw hat. The background features a dramatic coastline with white cliffs and a natural rock archway. The sky is blue with some clouds.

OUR GOAL IS YOUR SUCCESS!
